Our financial team also includes specialists who are experts in evaluating new private businesses called start-ups which have most chances to grow into large-scale and highly profitable enterprises. The idea is very simple: every business needs starting capital to go through bureaucratic formalities, rent premises, purchase equipment and other assets, hire employees and so on.

As a rule, start-ups don't have sufficient funds to afford everything they need for effective activity. Banks are quite prudent to "newbies", so it is often very difficult to borrow as much as necessary from banks.

### CRYPTO CURRENCY

With crypto currency being young, and the market being historically volatile, there is no yes or no answer about the wisdom of investing in crypto currency. It is with this in mind that we cover some pros and cons and friendly (but not professional) advice.

### STOCKS
